

CAPACITY CONNECT

Digital Governance & Capacity Building Foundation

Module 1: Modern Digital Administration Training Manual

This training handbook covers core competency frameworks, public digital infrastructure principles, and administrative workflows designed for organizational upskilling.

Core Curriculum Objectives:

- Understanding Multi-Tenant Public Service Architectures
- Zero-Trust Authentication & Role-Based Access Governance
- Real-Time Interaction, Assessment & Automated Certification
- Competency Mapping Frameworks for Institutional Growth

Assessment Guidelines:

Trainees must complete the 10-minute timed module assessment upon completing these study materials. Passing score of 60% is required to automatically trigger the digital certificate of completion.
